Business problem

Why this analysis matters

-35.61%

A -35.61% decline in daily revenue growth vs. last month points to a performance issue requiring immediate investigation.

-48.89%

Customer count dropped -48.89% vs. last month — a sharp decline that demands immediate attention.

High risk

Age-group concentration and settlement risk exposure demand proactive strategy to protect margins.

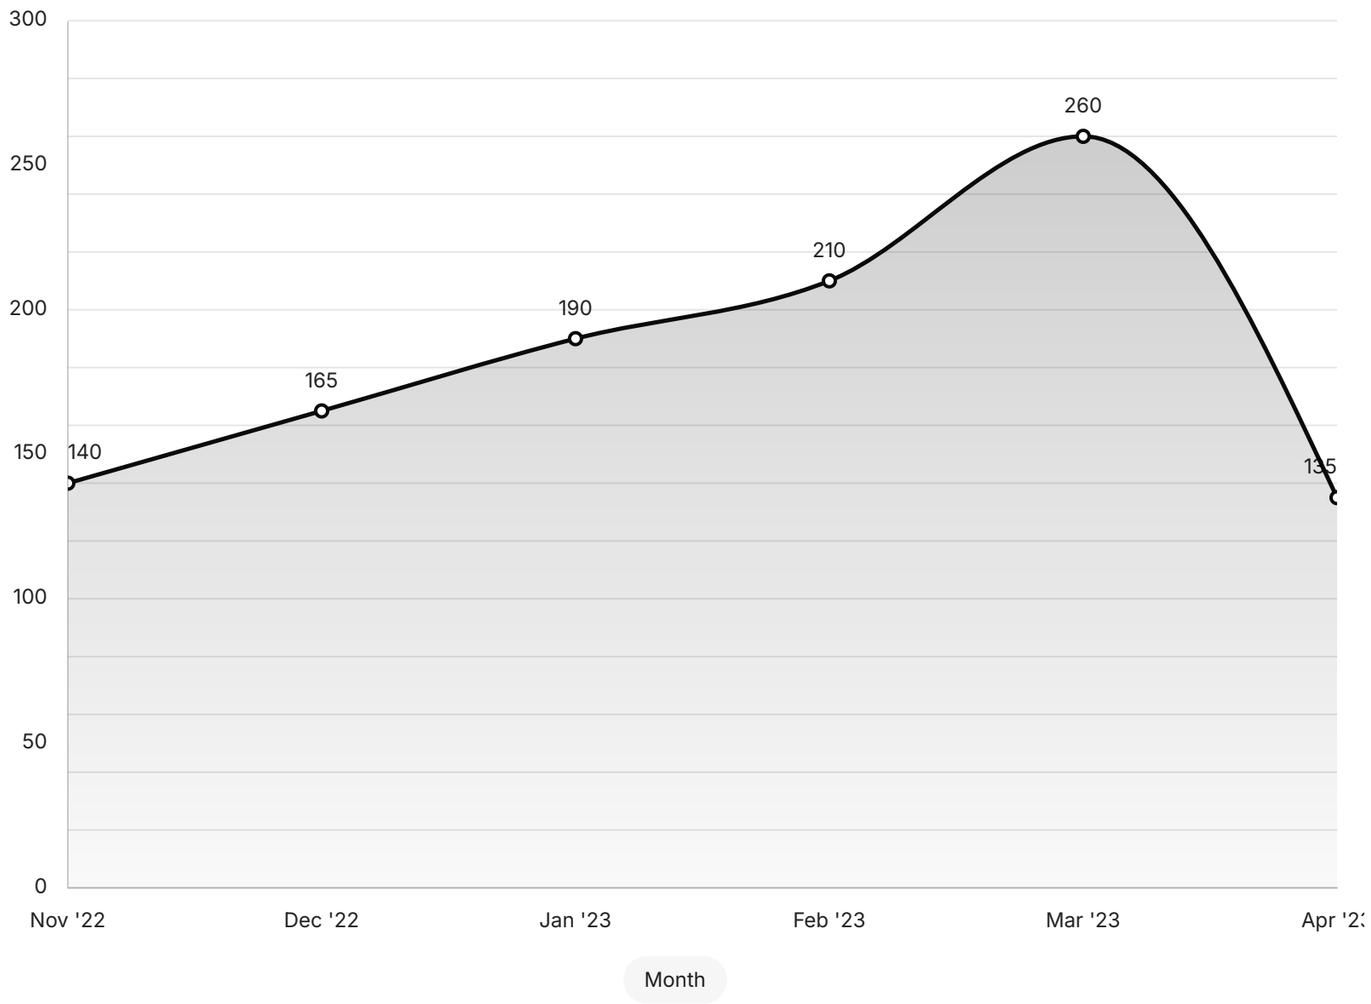
Revenue trend

Revenue volatility: 48% drop in Apr 2023

After peaking at ~260M INR in Mar 2023, revenue fell sharply to ~135M INR in Apr. Investigate policy renewals and acquisition pipeline immediately.

Monthly revenue: Nov 2022 - Apr 2023

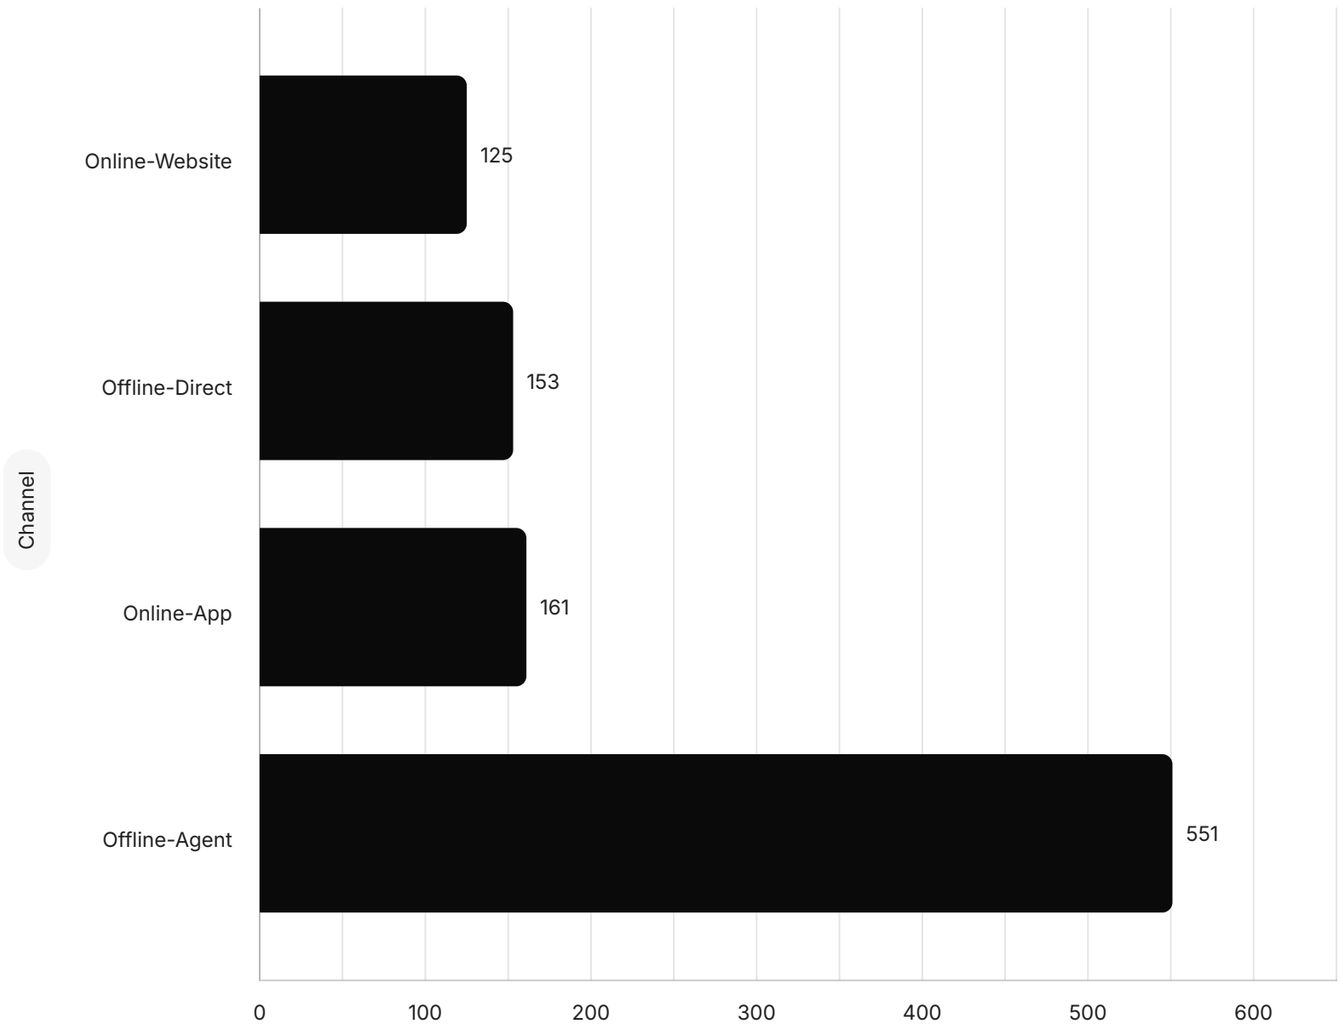


Key insight

One channel drives 56% of all revenue

Concentration risk: Offline-Agent at 55.67% means any disruption to the agent network directly impacts the majority of revenue.

Revenue by sales channel (INR millions)

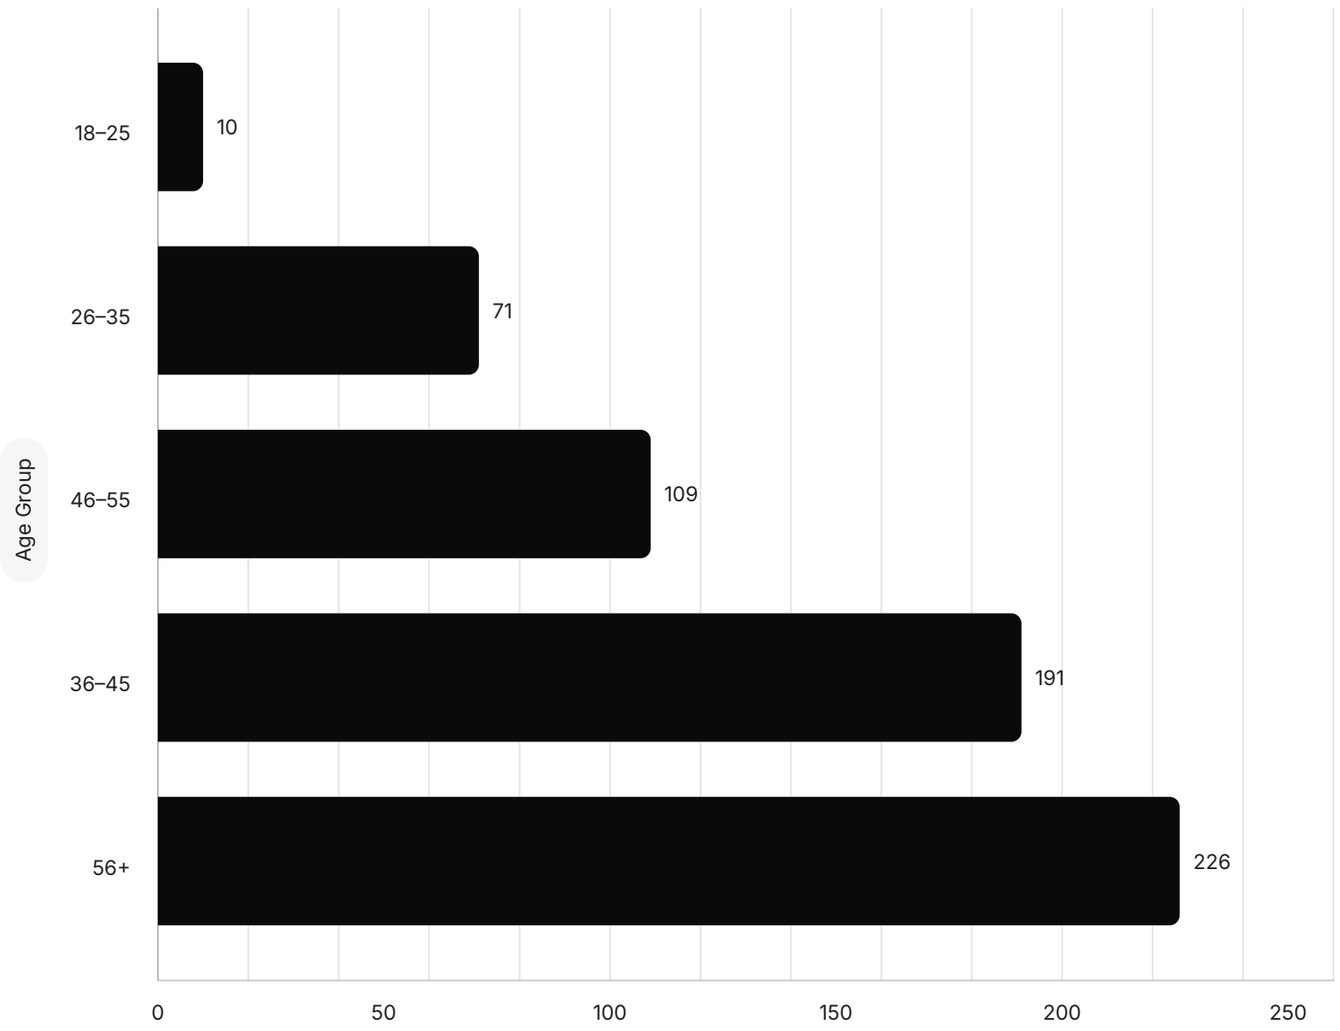


Age & risk

Older customers carry disproportionate settlement risk

The 18-25 segment (6.87% of customers, ~2K) carries the lowest settlement exposure at 10M INR — making it the lowest-risk age group by a significant margin. Source: Age group dashboard customer pie chart.

Expected settlement exposure by age group (INR M)



Risks and Opportunities

Key insights from our data analysis reveal critical risks and growth opportunities for Shield Insurance.

Channel Concentration

Offline-Agent at 55.67% of revenue creates high concentration risk if agent network is disrupted.

Customer Churn

April 2023 revenue drop of -48% MoM may signal early customer churn requiring immediate attention.

Settlement Exposure

56+ age group carries 226M INR in settlement exposure — the highest of any segment and a material financial risk.

Growth Potential

The 18-25 segment has the lowest settlement exposure (10M INR), and revenue per customer is up +8.79% MoM — both pointing to growth potential.

Next steps

Four actions to stabilize and grow

Investigate revenue drop

Identify churn triggers and lapsed renewals behind the Apr 2023 revenue drop. Owner: Revenue Analytics Team. Deadline: 2 weeks

Diversify channel mix

Grow App + Website to 40% of revenue by Q3 2023. Owner: Sales Strategy. Deadline: End of Q2 2023

Re-price 56+ policies

Review 226M INR settlement exposure and adjust underwriting criteria for 56+ age group. Owner: Actuarial Team. Deadline: 30 days

18–25 acquisition campaign

Launch a digital-first campaign targeting the low-risk 18–25 segment. Owner: Marketing. Deadline: Q3 2023
